YOUR GUIDE TO GETTING THERE
INTERVIEW DAY AT THE UNIVERSITY OF MICHIGAN MEDICAL SCHOOL

It’s a big day full of challenges — first and foremost, you need to get from your car to your interview! This map is designed to help you get there, and to show you some of the facets of the school and health system along the way. It takes about 15 minutes to walk from the parking garage to our door, so please give yourself plenty of time.

LET’S GET STARTED
Your Interview Day begins in the P2 parking garage. Be sure to get your bearings before starting out from the 2nd level.

YOU’RE ON YOUR WAY
- Go through the Taubman Center and follow signs to University Hospital. If you need to get your bearings, check a map directory on the wall or ask at an information desk. Don’t be surprised if someone asks you if you need help finding something. You’ll pass the orthopaedic surgery, general x-ray and radiology clinics. Turn left at the end of the hall, then jog right/left to enter the hospital.
- Pass by the Gift Shop and the UH Café (a.k.a. the cafeteria) on your right. Be sure to check out the latest Gifts of Art exhibit. You can also see the C.S. Mott Children’s Hospital and Von Voigtlander Women’s Hospital from the windows overlooking the courtyard.
- Continue toward the Cancer Center. You’ll see photos of our graduated classes — all the way back to 1862. Go past the café on your right.
- At the end of the hall, make a right and then a quick left through the double doors. Make another left after passing the staff elevators and then right up the ramp.
- Admissions is near! If you look outside, we are just beyond the stone wall. You’ll see the Frankel Cardiovascular Center to your left.
- At the top of the ramp, turn right and then go left through the double doors into the Medical School.
- Go down the hallway and take the elevators on your right up to the 4th level. Turn left, then right. The Admissions Office will be on your left.

YOU MADE IT! We’ll be sure to give you a parking voucher before you leave, so take a deep breath and enjoy your day.
Taubman Health Sciences Library
Recently transformed into an interactive modern education hub, Taubman features:
- A private, customized medical student lounge
- 7 technology-savvy small group classrooms
- Two interprofessional leadership zones for problem-solving and meetings
- Expansive computing and testing center
- Several large and small study rooms and zones
- Full-floor clinical skills simulation center
- Large commons area for community gathering, food, and exhibits
- Cafe

FACTS & FIGURES

GET READY. GET SET. GO BLUE. SEE THE SITES!

The University of Michigan Medical School and Health System is full of amazing history, knowledge, technology, programs, and care. In fact, it’s one of the largest single-site medical centers in the world. As you make your way to your interview, here is more information about some of the sites you’ll see.

The C.S. Mott Children’s Hospital and Von Voigtlander Women’s Hospital
As one of the leading pediatric health care centers in the United States, we serve the Littlest Victors:
- National rankings in all 10 categories on the 2015-16 U.S. News & World Report Best Children’s Hospitals list
- 1.1 million square feet facility, featuring 12-story inpatient tower and nine-story clinic tower
- 14,000 surgical cases and nearly 8,000 hospital stays annually
- Dedicated pediatric emergency room with more than 23,000 annual visits
- Specialty services not offered anywhere else in the state for newborns, children and pregnant women
- In-hospital Ronald McDonald House for families needing short-term lodging to be near critically ill children
