

Hello,

Welcome to the March edition of the U-CAN Newsletter.

Happy snow covered March! It has been a rough few months of snow and ice. I am counting down the days for spring to arrive. Daylight savings starts March 10th and the arrival of springs starts soon after, on March 20th. Let's hope that it arrives on time this year.

Upcoming Meeting

Our next U-CAN meeting will be held on **Tuesday, March 6th, 5:30-7:30 pm**. On the agenda is the UM prosthetic residents who will be talking to us about what is new in the field of prosthetics.

Please note that if the Ann Arbor public schools are closed, the monthly group meeting will not be held.

A look Ahead

April- Celebrating Limb Loss Awareness Month

Quote of the month: *The secret of health for both mind and body is not to mourn the past, not to worry about the future, not to anticipate the future, but to live the present moment wisely and earnestly. - Buddha*

Research Corner

- ❖ Eastern Michigan Masters' student in Orthotics and Prosthetics is looking for volunteers for a study concerning peer mentoring. The study involves a short, 15- minute interview regarding the experiences that you have had as a mentor in a peer mentoring program.

Participation requirements:

- Have been a peer mentor for 5 years or longer
- Willing to complete a 15- minute interview

If you are interested in participating in this study, please contact:

Brooke Antenen

Phone: 630-881-0043

Email: bantenen@emich.edu

- ❖ **University of Michigan Neurobionics Laboratory** is looking for paid volunteers with a below knee amputation to participate in research studying a new prosthetic ankle design with variable ankle stiffness.

Participation requirements:

- Have a single below knee amputation
- Attend up to 5 testing sessions that include walking tests such as level walking, walking up and down stairs and ramps while wearing the prosthesis

Participants will receive \$40 / hour during testing session and free parking.

The study will take 25 hours or less of your time.

If you are interested in volunteering for this project, please contact:

Catherine Kinnaird

❖ **University of Michigan has 3 ongoing prosthetic research studies that are looking for volunteers to participate.** They are listed below:

Evaluating and Improving Assistive Robotic Devices Continuously and in Real-time

Participation requirements:

- 18+years old, unilateral transtibial amputation, K3 or above, prosthesis for 6 months, can walk 30 minutes at a time

Exclusions from this study include:

- History of orthopedic or neurologic disorder to intact limb, history of cardiovascular disease, unable to walk 30 minutes at time

Mechanisms of Low Back Pain Development in People with Lower Limb Amputation

Participation requirements:

- 18-65 years old, unilateral transtibial amputation, independently ambulating for 2 months, 10 minutes of unassisted walking

Exclusions from this study include:

- Pathology or injury to intact limb, cardiovascular or neurologic disease, uncorrected vision problems, taking medication affecting balance or ability to walk, residual limb length that prevents incorporating load cell or performing alignment adjustments

Characterizing Limits of Performance Imposed by Upper-Limb Prostheses

Participation requirements:

- 18 +years old, unilateral upper limb amputation (transradial or transhumeral), BP or MYO prosthesis, or both, Prosthesis use for at least 6 months

Exclusions from this study include:

- Self-reported history of neurologic disorders, visual impairments, and/or balance impairments
