4TH ANNUAL
SERVICE AND EXCELLENCE
Celebration

25 APRIL 2018
North Campus Research Complex

DEPARTMENT OF INTERNAL MEDICINE
Welcome

The Service and Excellence Celebration recognizes the many contributions and achievements staff have made to the Department of Internal Medicine and the milestone anniversaries of our faculty and staff. On behalf of the Department’s leadership team, we thank you for your continued contributions, commitment, and dedication. We are humbled to work alongside so many talented and compassionate individuals and hope this celebration reflects our gratitude.

Thank you for attending.

John M. Carethers, MD, MACP
C. Richard Boland Distinguished University Professor
John G. Searle Professor
Chair, Department of Internal Medicine
Professor, Human Genetics

Musty Habhab
Chief Administrative Officer, Department of Internal Medicine
Staff Award for Excellence

The Department of Internal Medicine Staff Award for Excellence honors a staff member’s outstanding performance in administrative, clinical, or research support activities. It gives thanks to individuals who regularly provide service that is above and beyond expectations. These honorees must be a Medical School, Hospital, or Ambulatory Care Unit staff employee with a primary appointment in the Department of Internal Medicine for at least two years. Nominations are submitted by the employee’s supervisor or colleagues based on demonstrated excellence in work performance, leadership, customer service, and process improvement.

SERVICE EXCELLENCE GUIDING PRINCIPLES

- Demonstrate respect for others and hold them accountable for demonstrating the same.
- Provide excellent service to the people with whom I interact on a daily basis.
- Make all interactions positive and professional.
- Show empathy towards others.
- Actively engage in discussions and in resolving issues.
- Identify opportunities for improvement and recommend solutions.
- Practice active listening, setting aside distractions to focus on the person and issue at hand.
- Demonstrate integrity in all I do.

Milestone Anniversary Award

The Department of Internal Medicine Milestone Anniversary Award recognizes a faculty or staff member’s years of service, dedication, and loyalty. This year, the awards are presented to all those who achieved a milestone anniversary in calendar year 2017.
Welcome & Milestone Awards

John M. Carethers, MD, MACP, C. Richard Boland Distinguished University Professor; John G. Searle Professor; Chair, Department of Internal Medicine; Professor, Human Genetics

Staff Awards for Excellence

Musty Habhab, Chief Administrative Officer, Department of Internal Medicine

Research Excellence Award

Trina Bailey, Administrative Specialist, Metabolism, Endocrinology and Diabetes
Jeff Cole, Research Supervisor, Gastroenterology and Hepatology
Tamara Gay, Research Administrator, General Medicine
Mohammed Kabeto, Research Specialist, General Medicine
Andrea Waltje, Research Specialist, Metabolism, Endocrinology and Diabetes

Administrative Excellence Award

Silvana Janevski, Office Manager, Chair’s Office
Crystal Neal, Fellowship Coordinator, Gastroenterology and Hepatology
Vicky Vincent, Administrative Assistant, Gastroenterology and Hepatology

Clinical Excellence Award

Veronica “Ronnie” Downer, Nurse Coordinator, Pulmonary and Critical Care Medicine
Dena Fernandez, Manager, Medical Short Stay Unit, Hospital Medicine
Michelle Fugate, Administrative Manager, Allergy and Clinical Immunology
Melissa McInroy, Exercise Physiologist, Pulmonary and Critical Care Medicine
Emily Weatherup, Director, Diabetes Education; Metabolism, Endocrinology and Diabetes

Concluding Remarks

Musty Habhab, Chief Administrative Officer, Department of Internal Medicine
Research Excellence Award

Trina Bailey
Administrative Specialist, Division of Metabolism, Endocrinology and Diabetes

Trina Bailey joined the University of Michigan in 1998 as an intern in Sponsored Programs. Currently, she is a senior research and grants and contracts manager for the Division of Metabolism, Endocrinology and Diabetes.

When asked why she likes to work here, Trina stated, “First and foremost, I love the people I work with - we have a really great team. I love the work that I do and find the science fascinating.”

Trina lives in Canton with her husband, Brandon, and her stepdaughter. She describes herself as eclectic, organized, generous, reflective, and industrious.

Outside of work, Trina enjoys reading, traveling, and is an amateur photographer.

“Trina’s initiative, creativity, organization, and diligence have vastly reduced the administrative burden for our faculty members. She has greatly improved the morale and productivity of our entire division, and her efforts have helped our faculty members focus on what they love about academic medicine - scientific discovery.”

- Olushola Samuel, Administrator, Division of Metabolism, Endocrinology and Diabetes
Jeff Cole
Research Supervisor, Division of Gastroenterology and Hepatology

Jeff Cole joined the University of Michigan in 1984 as a lab manager for Dr. Francis Collins. Currently, he is the administrator for the Michigan Center for Gastrointestinal Diseases with the Division of Gastroenterology and Hepatology. Jeff is responsible for performing all pre-award and post award activities for the P30 grant.

When asked why he likes to work here, Jeff stated, “Working with an amazing and intellectually stimulating group of faculty and staff within our division, as well as with many peers across the Department of Internal Medicine. Everyone is so smart and driven toward a common goal of delivering top-notch patient care and academic excellence.”

Jeff has lived in the Ann Arbor area for over 40 years. He currently lives in Scio Township with his wife, Karen. They will celebrate 36 years of marriage this June. They have three sons - Michael, Matthew, and Thomas. In addition, he has two granddaughters, Mary and Margaret.

Jeff describes himself as a steady friend, big brother, loyal, and competitive. He enjoys making people laugh and lifting the spirits of those around him. Outside of work, Jeff loves to play golf and cherishes the company of good friends and family.

“Jeff is a bright, innovative, personable cornerstone of the division, who came to us with extensive experience in research. He has expanded his knowledge in this area, and has successfully broadened his expertise in human resources, and accordingly, continues to be viewed as an exceptionally valuable member of the Division and Department. We are very grateful that he is a member of our team!”

- Jeff Holden, former Administrator, Division of Gastroenterology and Hepatology
Tamara Gay
Research Administrator, Division of General Medicine

Tamara Gay joined the University of Michigan in 1988. Currently, she is a research administrator for the Division of General Medicine.

When asked why she likes to work here, Tamara stated, “The University has a great deal to offer its employees and also likes the daily challenges her position brings.”

Tamara and her husband, John, live in Pinckney and will be celebrating 40 years of marriage in August. They have a son Adam and a daughter Ashley. Ashley also works for the University of Michigan. Tamara has three grandchildren and is excited about the arrival of a new granddaughter at the end of April.

Tamara describes herself as dedicated, passionate, and caring. She likes spending time with her family and also enjoys planning events like baby showers, weddings, and birthday celebrations.

“Tammy is a tremendous asset to General Medicine, Hospital Medicine, the institution, and the community. Her organizational knowledge, her can-do-it attitude, and her compassion for others are of great value to the team and make her extremely worthy of the Staff Award for Excellence.”

- Kim Rize, Administrator, Division of General Medicine
Mohammed Kabeto
Research Specialist, Division of General Medicine

Mohammed Kabeto joined the University of Michigan in 1999, in the Division of General Medicine. Today, he stills work for General Medicine however, as a research specialist performing analysis and providing consulting.

When asked why he likes to work here, Mohammed stated, “I like doing this work because I believe what I do contributes to the overall understanding of the epidemiology of some diseases, and to the betterment of health service and policy.”

Mohammed and his wife, Foziya, have been married for 20 years and have four children - three boys and one girl. He describes himself as a team player, a helper, and a dedicated worker.

Outside of work, Mohammed enjoys helping others. He volunteers his time to the non-profit organization, Relief for Africa in Ethiopia, where he was able to help them receive two ambulances, donated by Huron Valley Ambulance.

“Mohammed is a universally-loved and sought-after member of our research team who has made important contributions to the work of many junior and senior faculty in the Department, the Medical School, the wider University community, as well as our collaborators at other institutions. His rare combination of expert subject knowledge, methodological training and experience, and especially his exceptional quality of character, make Mohammed a remarkable individual, colleague, and a valuable asset to the Department of Medicine.”

- Kenneth Langa, MD, PhD, Cyrus Sturgis Research Professor, Division of General Medicine
Andrea Waltje
Research Specialist, Division of Metabolism, Endocrinology and Diabetes

Andrea Waltje joined the University of Michigan in 2009 to support Dr. Sonia Duffy with smoking cessation and sun protection studies at the School of Nursing. Currently, she is a research specialist for the Division of Metabolism, Endocrinology and Diabetes, working with the GRADE study which serves those living with type 2 diabetes.

When asked why she likes to work here, Andrea stated, “My team is the best. I enjoy serving our patients and I feel like I contribute to important work.”

Andrea lives in Ann Arbor with her husband, Jörg. They have two grown daughters, Fiona and Laura. Andrea describes herself as organized stating she can be “obsessive with sorting, organizing, cleaning, purging, etc.”. Those around her say Andrea is kind and approachable.

Outside of work, Andrea enjoys swing dancing, spending time with her family, and spring!

“Andrea is an invaluable member of the GRADE study team and her commitment to the requirements of the study protocol will undoubtedly ensure the success of GRADE at the University of Michigan. More importantly, her commitment to our GRADE participants will help them to successfully manage their diabetes during and even after the completion of the study.”

- Cathy Martin, Clinical Research Nurse, Division of Metabolism, Endocrinology and Diabetes
Silvana Janevski
Office Manager, Chair’s Office

Silvana Janevski joined the University of Michigan in 2004 in the MedSport Orthopaedics Clinic. Currently, she is the office manager for the Chair’s Office and supports the Chief Department Administrator.

When asked why she likes to work here, Silvana stated, “I love my work and feel privileged to be working among some amazing individuals! I have learned so much since joining Internal Medicine in 2010 and adore the mentors I have had along the way. I feel valued in my role and am reminded, almost on a daily basis, how appreciated I am. I am very grateful to be working in Internal Medicine!”

Silvana lives in Plymouth with her husband, John. They have been married for 28 years and have three children - Anjelica, 24, Kristopher, 23, and Kayla, 21.

Silvana describes herself as cautious, hardworking, dedicated, loyal, compassionate, and trustworthy. She likes to spend time with her family and taking vacations. Silvana also enjoys being physically active - doing yoga and CrossFit in her spare time.

“Our Michigan Medicine values of caring, teamwork, innovation, integrity, and excellence are on display in each and every moment of each and every day of Silvana’s work! Thank you, Silvana, for being someone we all can count on and trust to not only do what needs to be done, but to do it in a manner that inspires and motivates all of us to do and be better! Silvana’s dedication and hard work along with her positive and transparent leadership style result in her doing her absolute best each and every day, and she ensures that approach shines through in all she does.”

- Jolena Nollar, Administrative Director, Department of Internal Medicine
Crystal Neal
Fellowship Coordinator, Division of Gastroenterology and Hepatology

Crystal Neal joined the University of Michigan in 2015. Currently, she is the fellowship coordinator for the Division of Gastroenterology and Hepatology.

When asked why she likes to work here, Crystal stated, “I love working around people who are so passionate about what they do. I have great fellows and a Program Director who consistently amazes me with his commitment to his patients and fellows, and to education overall. It’s inspiring to see the fellows grow and become better physicians while they are here and to know that I have played an integral part of their training.”

Crystal lives in Ypsilanti with her three sons - Carter, Myles, and Mason. People around her describe her as fun, outgoing, and full of personality.

Outside of work, Crystal enjoys spending time with her children, family, and friends. She also likes to travel and go to the gym.

“Everything Crystal does truly reflects the Michigan Medicine mission of excellence and leadership and setting the example to follow when it comes to the educational and training success of our trainees. I feel tremendously blessed to have Crystal as our fellowship program coordinator and represent our Program at the local, state, and national level. It has been a wonderful honor to work with her.”

- Hari Conjeevaram, MD, MS, Professor, Division of Gastroenterology and Hepatology; Director, Gastroenterology Fellowship Training Program
Vicky Vincent
Administrative Assistant, Division of Gastroenterology and Hepatology

Vicky Vincent joined the University of Michigan in 1997 as a mail courier in faculty affairs. She went on to serve briefly as a secretary to the finance and human resource directors, and then worked as a human resources generalist through 2010. Vicky moved to Kansas City for a few years before moving back to the area and returning to the University of Michigan in 2014. Currently, she is an administrative assistant in the Division of Gastroenterology and Hepatology, supporting eight faculty members and the division administrator.

When asked why she likes to work here, Vicky stated, “I prefer to work at a place that I am proud to recommend to my family and friends to come and be seen as patients. I have always felt that way about the University of Michigan.”

Recently, Vicky moved back to her hometown in Dearborn to be near her son and daughter. She enjoys living close to her grandchildren, James and Alayna, both of whom she sees often.

Those around Vicky describe her as warm, inviting, respectful, and passionate about her work.

“Vicky Vincent is a bright, innovative, personable member of our division, who came to us with valuable experience in faculty affairs and administration. Her commitment to continue to develop herself and her concern and contributions to patients, her peers, staff and faculty are welcome additions to our entire team.”

- Jeff Holden, former Administrator, Division of Gastroenterology and Hepatology
Veronica “Ronnie” Downer  
Nurse Coordinator, Division of Pulmonary and Critical Care Medicine

Ronnie Downer joined the University of Michigan in 1990. Today, she is a nurse coordinator for the Cystic Fibrosis Clinic in the Division of Pulmonary and Critical Care Medicine.

When asked why she likes to work here, Ronnie stated, “I love the patients, I like making a difference. I learn something new each day. The nurses and doctors are amazing at this institution. And it is a family tradition - my dad and my sister both worked here.”

Ronnie and her husband, John, live in Ann Arbor and will be married for 25 years in June. Their 23-year-old son, John, is an accountant, and their 21-year-old daughter, Melissa, is studying criminal justice.

She describes herself as honest, dependable, motivated, compassionate, caring, knowledgeable, and a strong patient advocate who loves a challenge.

Outside of work, Ronnie loves spending time with her family - especially watching her children grow into young adults. She is passionate about her faith and enjoys the outdoors by lakes and beaches.

“Ronnie goes above and beyond for patients, colleagues, and physicians. She is an advocate for her patients and always puts the needs of others before herself through direct patient care, patient care coordination with other departments in the health system, and through the development of many quality improvement programs.”

- Shijing Jia, MD, Assistant Professor, Division of Pulmonary and Critical Care Medicine
Clinical Excellence Award

Dena Fernandez
Manager, Medical Short Stay Unit, Division of Hospital Medicine

Dena Fernandez joined the University of Michigan in 2016. Currently, she is the manager of the nurse practitioner and physician assistant group for the Medical Short Stay Unit in the Division of Hospital Medicine.

When asked why she likes to work here, Dena stated, “I enjoy the collaborative environment between providers, faculty physicians, nurse practitioners, and physician assistants.”

Dena lives in Northville and has two children. She describes herself as team-minded, patient-focused, and a life-long learner. Dena is passionate about patient education and health literacy.

“Dena plays an integral role in the Division of Hospital Medicine, specifically in the Medical Short Stay Unit (MSSU), one of the busiest clinical operations at the hospital. As the Manager of the Advanced Practice Providers in the MSSU, Dena has invested tremendous work and leadership in building a strong and highly talented team of APP’s. She is committed to her role, to her staff, to the unit and its patients, and it’s clear in every one of her actions. We are fortunate to have Dena’s leadership and talent on our team.”

- Marisa Rodriguez, Administrator, Division of Hospital Medicine
Michelle Fugate
Administrative Manager, Division of Allergy and Clinical Immunology

Michelle Fugate joined the University of Michigan in 2001 in the Department of Internal Medicine’s Clinical Operations office. Today, she is the administrative manager for the Division of Allergy and Clinical Immunology for their clinic at Domino’s Farms.

When asked why she likes to work here, Michelle stated, “I enjoy working with our patients, staff, and faculty. I appreciate the many positive working relationships I have with staff and faculty. In Allergy, I feel like I am part of a family. I am very lucky to work with such a supportive team, and I look forward to coming to work each day!”

Michelle lives in Tecumseh with her husband, Greg, and their two children, Tanner who is 19 and Tyler who is 16.

Michelle describes herself as committed, caring, hardworking, and friendly. She enjoys spending time with her family, vacationing up north, and attending her children’s sporting events.

“Michelle is well-deserving for the Clinical Excellence Award. She is an excellent role model and mentor. Michelle has the ability to analyze and develop practices that improve faculty/staff engagement, processes, and ultimately the patient experience.”

- Hillary Gallagher, Administrator; Marc McMorris, MD, Associate Professor; and James Baldwin, MD, Chief and Professor, Division of Allergy and Clinical Immunology
Melissa McInroy

Exercise Physiologist, Division of Pulmonary and Critical Care Medicine

Melissa McInroy joined the University of Michigan in 2010 in Pulmonary Rehabilitation, where she still works today, as an exercise physiologist.

When asked why she likes to work here, Melissa stated, “I really enjoy taking care of the patients that I work with. I love helping them set goals and achieve their goals. Helping them improve their quality of life is very rewarding. I also enjoy working with my co-workers - we work as a team and communicate with each other very well.”

Melissa and her husband, Darryl, live in Webberville. She has two stepchildren, Gradyn, 18, who will be graduating high school, and Paige, 16, who is finishing her junior year.

Her family, friends, and co-workers say that Melissa is very honest, adventurous, independent, caring, funny, encouraging, logical, approachable, and a great team player.

Outside of work, Melissa is passionate about working with youth in sports. She has coached baseball and softball and provides lessons to kids in her community. In addition, she enjoys reading, hunting, fishing, and finds that archery is one of the best stress relievers.

“Melissa has been the main reason the Pulmonary Rehabilitation program has been a success and certified/re-certified over the years. Her insight, forward thinking, and compassion for her patients are her main drivers and she is exactly the person we need to keep this program moving to new heights.”

- Geriann Balasick, Administrative Manager, Division of Pulmonary and Critical Care Medicine
Emily Weatherup

Director, Diabetes Education Program; Division of Metabolism, Endocrinology and Diabetes

Emily Weatherup joined the University of Michigan in 2012 as a registered dietitian nutritionist for the Intensive Care Unit in the Cardiovascular Center. Currently, she is the director of the Diabetes Education Program in the Division of Metabolism, Endocrinology and Diabetes.

When asked why she likes to work here, Emily stated, “Michigan Medicine offers me the opportunity to affect positive change in the lives of my patients and all those we serve. I enjoy being a part of cutting-edge medical advancements and research, and love learning from the many interdisciplinary partnerships I am involved with in my current position.”

Emily and her husband, Jeffrey, live in South Lyon, and are expecting their first child in May. She describes herself as dedicated, caring, strong, and a lover of chocolate!

Outside of work, Emily loves the outdoors and enjoys walking and biking. In addition, she is an avid baker.

“Emily provides an example of a true clinical leader and champion through her tireless work and consistently going above and beyond. The importance of her efforts to support the care of our patients and to improve processes for diabetes care at Michigan Medicine’s primary care clinics and inpatient settings, can not be understated.”

- Jennifer Wyckoff, MD, Assistant Professor, Division of Metabolism, Endocrinology and Diabetes
