Implementation of Oregon's Health Reform Policy

• **November 29***

Marc Williams, MD

Patient-Centered Precision Health at Geisinger

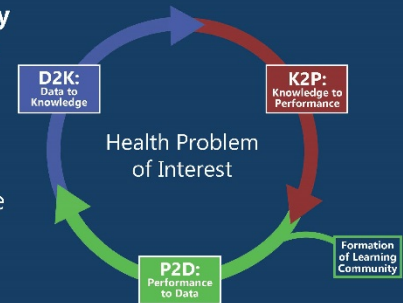

*Co-sponsored by PHI

LHSCollaboratory
Putting Data, Knowledge, and Practice into Motion at the University of Michigan

Learning Health System (LHS) Collaboratory is a campus-wide hub for faculty, student, and staff interest in LHS initiatives, advancing interdisciplinary research and promoting the development of learning health systems.

Through collaboration, U-M could become the world-wide academic epicenter for the LHS, and the Collaboratory seeks to realize that potential.

Join peers, thought leaders, LHS subject matter experts and others interested in Learning Health Systems at one of these informative events for the Fall 2018 LHS Collaboratory Seminar Series.

Fall Kick-off and Poster Session
Campus-wide LHS Showcase
Tuesday, September 18, 12-1:30pm Palmer Commons
