

Cell Plasticity
Organ Design | CPOD

Seminar Series & Translational Cross Talks 2022-2023

Presentations generally take place:
Tuesdays at 4:00 pm
BSRB ABC Seminar Rooms
and/or Zoom

Date Location	Speaker and Affiliation	Host(s)/Sponsor
September 20 th In Person	Brian C. Capell, MD, PhD Assistant Professor, Dermatology University of Pennsylvania <i>“Chromatin at the nexus of epithelial development, differentiation, and cancer”</i>	Rajesh Rao
October 4 th In-Person	Andrew T. Kodani, PhD Assistant Member, St. Jude Faculty Center for Pediatric Neurological Disease Research St. Jude Children’s Research Hospital <i>“Utilizing Human Genetics to Build the Brain”</i>	Sunny Wong
October 11 th In-Person	Alex Hughes PhD Assistant Professor, Bioengineering University of Pennsylvania <i>“Interpreting geometric rules of early kidney formation for synthetic morphogenesis”</i>	Claudia Loebel
Friday, October 28th In-Person	Longhua Guo, PhD Assistant Professor Molecular & Integrative Physiology University of Michigan <i>“From Genetics to Sex Chromosome Evolution, Aging and Regeneration”</i>	Laura Buttitta <i>Variations In Biology</i>
	CPOD INTERNATIONAL SYMPOSIUM & POSTER SESSION Wednesday November 2, 2022 10:00 am-6:00 pm More Information: https://medicine.umich.edu/dept/cpod/international-symposium-poster-session Submit Abstracts by Friday, October 14 Via Google Form: https://forms.gle/QApAFjxdzEUm6hWPA	
November 8 th In-Person	Mariana Wolfner, PhD Distinguished Professor Arts and Sciences in Molecular Biology & Genetics Cornell University <i>“Molecular changes in mature sperm, eggs, and females that are necessary for fertility: lessons from the Drosophila model”</i>	Sue Hammoud
December 6 th In-Person	Jun Wu, PhD Assistant Professor, Molecular Biology UT Southwestern Medical Center <i>“Dynamic pluripotent stem cell states and their applications”</i>	Sue Hammoud
January 24 th In-Person	Sharad Ramanathan, PhD Professor of Neurosciences and of Molecular and Cellular Biology Harvard Dept of Stem Cell & Regenerative Medicine	Idse Heemskerk
February 28 th Virtual	Valentina Greco, PhD Professor, Genetics Yale University <i>“Principles of tissue dynamics and functions captured by live imaging”</i>	Pierre Coulombe
March 14 th In-Person Internal	María Coronel, PhD Assistant Professor Biomedical Engineering University of Michigan	Ariella Shikanov
March 28 th In-Person	Melissa Harrison, PhD Associate Professor University of Wisconsin	Laura Buttitta
April 4 th Virtual	Marta Shahbazi, PhD MRC Laboratory of Molecular Biology (LMB)	Gary Smith
April 18 th In-Person	Barak Blum, PhD Assistant Professor Cell and Regenerative Biology University of Wisconsin-Madison	Ben Allen
April 25 th Virtual	Neil Shubin, PhD Distinguished Service Professor of Organismal Biology and Anatomy University of Chicago	Tyler Hoard Allen Lab <i>Variations In Biology</i>
May 2 In-Person	Tamara Caspary, PhD Professor Human Genetics Professor, Emory University	Jillian Pearring
May 23 In-Person	Martyn Goulding, PhD Professor Molecular Neurobiology Laboratory Frederick W. and Joanna J. Mitchell Chair Salk Institute	Greg Dressler
