WINTER 2025 NEW YEAR - NEW FACULTY MAKING CONNECTIONS SEMINAR SERIES

JUNIOR WEST, Ph.D.

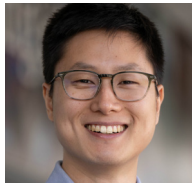

Assistant Professor
Molecular, Cellular &
Developmental Biology

January 14: 4:00-5:00pm

BUHL 5915

*“Barrier Breakdown: Pathways to
Metastasis”*

HERMAN FUNG, Ph.D.

Assistant Professor
Cell & Developmental
Biology
Research Assistant
Professor
Life Sciences Institute

January 21: 4:00-5:00pm

BSRB ABC Seminar Rooms

*“Charting the molecular landscape of cells
and tissues with cryo-correlative light and
electron microscopy (cryo-CLEM)”*

ALISON VANDER ROEST, Ph.D.

Assistant Professor
Biomedical Engineering

January 28: 4:00-5:00pm

BUHL 5915

*“Mechanobiology of cardiac disease
and cardiomyopathy: modeling cellular
mechanics and structural impacts”*

SUNGMIN NAM, Ph.D.

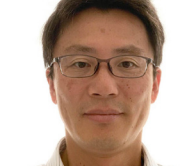

Assistant Professor
Mechanical Engineering

February 18: 4:00-5:00pm

TAUBMAN LIBRARY 2903

*“Multiscale Mechano-Medicine from
mechanobiology to biomedical devices &
materials”*

JUNICHI IWATA, D.D.S., Ph.D.

Professor
Orthodontics, Pediatric
Dentistry and Dentistry

February 25: 4:00-5:00pm

TAUBMAN LIBRARY 2903

*“Role of cholesterol metabolism and
membrane trafficking in craniofacial birth
defects and diseases”*
