

**WINTER 2024
NEW YEAR - NEW FACULTY
MAKING CONNECTIONS
SEMINAR SERIES**

DAVID LORBERBAUM, Ph.D.

Assistant Professor
Pharmacology
University of Michigan

**January 23rd: 4:00-5:00pm
BSRB ABC Seminar Rooms**

“Intersecting cell signaling pathways and transcription factors that regulate pancreas development, function, and disease”

HISHAM BAZZI, Ph.D.

Associate Professor
Cell & Developmental
Biology
University of Michigan

**January 30th: 4:00-5:00pm
BSRB ABC Seminar Rooms**

“Cell cycle and cell fate during skin development”

TOMER STERN, Ph.D.

Assistant Professor
Biologic & Materials
Sciences & Prosthodontics
University of Michigan

**February 6th: 4:00-5:00pm
BSRB ABC Seminar Rooms**

“Deconstructing gastrulation at single cell resolution”

MICHELLE HASTINGS, Ph.D.

Professor
Pharmacology
University of Michigan

**February 13th: 4:00-5:00pm
BUHL 5915**

“RNA Therapeutics: Targeting RNA to Modulate Gene Expression and Treat Disease”

AGNIESZKA LUKASZEWICZ, Ph.D.

Assistant Professor
Human Genetics
University of Michigan

**February 27th: 4:00-5:00pm
BUHL 5915**

“Germline mutagenesis at meiotic double-strand breaks”
