University of Michigan  
Center for Reproductive Medicine  
475 Market Place  
Ann Arbor, MI 48108  
734-763-4323

Dear Patient,

Welcome to the University of Michigan Center for Reproductive Medicine. We are dedicated to providing the highest quality care to our patients and assisting you in making decisions that are right for your circumstances. On behalf of the entire Reproductive Medicine team, we thank you for choosing us for your reproductive health care needs. If you are unable to keep any scheduled appointment, please contact us as soon as possible to cancel your appointment: 734-763-4323.

Our goal is to make your first visit as informative and pleasant as possible. In preparation for this, we ask that you review the provided materials and **complete** the enclosed questionnaire. The first pages of the questionnaire are for you to complete. If you have a male spouse or partner, he should fill out the last page of the questionnaire. If not, please disregard that page. Please bring these documents with you to your first appointment. The length of time for this visit depends on your individual circumstances and the recommendations made at the time of your visit. Some plans and evaluation require nursing teaching, meeting with a financial counselor, or speaking with our social worker. While we hope to make your visit as efficient as possible, please allow 1-2 hours for your visit in our clinic, so that all of your concerns and questions can be addressed as completely as possible.

If you were seen at another facility for fertility treatment or for extensive gynecological and/or medical treatment relating to your referral to the Center for Reproductive Medicine, please provide us with these records as soon as possible. A medical release form is enclosed for your use. Your health care providers may fax your records to us at 734-763-7682, or mail them to the following address:

UMHS Center for Reproductive Medicine  
475 Market Place, Bldg 1, Suite B  
Ann Arbor, MI 48108

If you would like your spouse, partner, family and/or friends to be involved in verbal discussions regarding your care, including diagnoses, test results, and treatment options, please complete the Family and Friends List, and bring it with you to an appointment.

We feel it is important to take a comprehensive approach to your evaluation and treatment. Attending and resident physicians, fellows, medical students, nurses, our social worker, and other staff may be involved in your care. We will do our best to introduce the individual members of our team as you meet them and to explain our roles in your care.

Thank you, again, for choosing the Center for Reproductive Medicine. We look forward to meeting you!

Sincerely,

The Center for Reproductive Medicine Team
