

Sustainability and Inclusion Work Group

Our workgroup is charged with **mobilizing diverse stakeholders in active engagement around the value proposition of CBK.**

During our breakouts (Thurs. and Fri.) we will:

❖ **During our breakouts (Thurs. and Fri.) we will:**

❖ **Create tactical plans** for outreach to:

- ❖ American College of Obstetricians and Gynecologists (**ACOG**) and American Medical Informatics Association (**AMIA**) [Thursday] and
- ❖ Association of Academic Health Sciences Libraries (**AAHSL**) and Healthcare Information and Management Systems Society (**HIMSS**) [Friday]
 - ❖ Using structured interview questions and a communications strategy template

Technical Infrastructure Work Group

Our workgroup is charged with **identifying, describing, and developing the infrastructure landscape**: stakeholders, frameworks, components, and the use cases connecting them.

During our breakouts (Thurs. and Fri.) we will:

- ❖ **Start to pin down what makes infrastructure unique**, surface specific examples, survey existing infrastructure and identify gaps.
- ❖ **Develop concrete plans for what this group can do to facilitate creation and adoption of infrastructure**, given the roles our members play. (Though we may not be actually creating the infrastructure ourselves, we can help it happen!)
- ❖ **Organize ongoing activities** around communications, compiling resources, implementation guides, governance, policy, and scholarly publishing on infrastructure concerns. **Roll up your sleeves!**

Trust and Policy Work Group

Our workgroup is charged with **identifying and addressing gaps in policy and issues (external or internal to the MCBK community) that would impact the quality of the data and knowledge, or its trustworthiness.**

During our breakouts:

Thursday:

- ❖ Introduction to key concepts and prior workgroup activity
- ❖ Allen Lichter will present on CancerLINQ

Friday

- ❖ Brainstorm industry needs pertaining to trust and policy
- ❖ Identify emergent principles around MCBK and the typology of policy requirements
- ❖ John Fox will present on OpenClinical

Standards Work Group:

- **Reminder: Our Workgroup seeks to facilitate knowledge use by enabling FAIR capabilities**
- **During our breakouts (Thurs. and Fri.) we will discuss:**
 - **Two driving Use Cases:**
 1. Mobilizing CBK across Multiple Episodes of Care (MEC)
 2. Mobilizing CBK for Precision Molecular Medicine (PMM)
 - **Metadata axes/dimensions** for describing different types of CBK
 - **Barriers and enablers** and WG role in addressing
 - Draft **Mind Map** Diagram of existing relevant standards
 - **Harmonization, coordination**, and needs to use many different standards
 - Stages of CBK **lifecycles**, and role of WG
 - Plan **next steps** for WG
