

# 1st International Conference of AI in Healthcare (ICAIH) March 7-9, 2018

Event Link: [www.AHMCsmartcare.com](http://www.AHMCsmartcare.com)

## Main Theme of 1st ICAIH

### Deep Intelligence to Advance Smart Care - Towards A Learning Health System

Artificial Intelligence (AI) has had a great impact on the healthcare field and will continue to transform health systems radically. Every healthcare professional should arm themselves with the knowledge to face these changes. This conference gathers world-renowned experts and veterans that will take you through a journey of dynamic tutorials, lectures and workshops. They start from the basic concept of AI and continue to advanced deep-learning technologies and trends in healthcare. The goal of this meeting is to engage the busy healthcare professional in riding the gigantic waves of AI in Healthcare to a brighter tomorrow.
