Want to get off the treadmill and focus on what’s important? 
Work at top-of-license with a talented team!

Henry Ford Health System’s Department of Academic Internal Medicine, is seeking a board 
eligible/certified Internist- to serve as a core faculty clinician-educator for its large urban residency and 
patient population.

Our dual mission is to advance the health and well-being of our community and to 
educate tomorrow’s healthcare leaders. We help patients and their families maintain health, 
manage chronic diseases, and live with complex conditions. Both the inpatient floors and the faculty 
clinic operate in collaborative team-based models.

The Academic Patient Centered Team Care (A-PCTC) clinic is an innovative Detroit-based 
patient-centered medical home for medically and socially complex adult patients and 
families. Outpatient teams are supported by integrated health psychologists, nurse-driven chronic 
disease management protocols, nurse case manager, social worker, pharmacists, community health 
worker, and diabetes educators. Inpatient teams are supported by integrated pharmacists, nurse case 
managers and social workers.

This position will directly care for high-acuity patients in the faculty inpatient and 
outpatient practice. Supervise the care provided to patients by housestaff and medical students. 
Mentor residents in evidence-based medical care, quality improvement, and academic scholarship. Work 
within the Health System and with other Departments to further the effective management of ambulatory 
and hospitalized patients. Opportunities for career development as a clinician-educator.

Henry Ford Health System is one of the country’s largest health care systems and a national leader in 
clinical care, research and education. Our system includes the 1,200-member Henry Ford Medical Group, 
six hospitals, Health Alliance Plan, 32 primary care centers and many other health-related entities 
throughout Southeast Michigan. We also have plans for future growth including a new Cancer Center in 
Detroit.
