August 22, 2018

Dear Residency Program Director, Department of Medicine:

ProHealth Care is seeking a board eligible / board certified internal medicine / pediatrics physician to expand our team, based in Delafield, WI. This outstanding opportunity is a community-based position with ProHealth Medical Group (PHMG). PHMG is a multi-specialty practice composed of over 300 providers serving the Waukesha County service area, a suburban community near Milwaukee, WI.

A preeminent primary care program, ProHealth Care treats thousands of ambulatory patients per year. Our outcomes are the result of a dedicated team of highly skilled physicians focused on delivering evidence-based medicine. Our providers are committed to exceed our patients’ expectations as they provide state-of-the-art care.

ProHealth Care is the leading provider in Waukesha County, which includes the ProHealth Waukesha Memorial Hospital, ProHealth Oconomowoc Memorial Hospital, and the ProHealth Rehabilitation Hospital of Wisconsin. With twelve primary care and eight urgent care locations, our organization is strongly positioned in our market. This role includes the opportunity to partner with other well-established Med/Peds physicians in combination with a robust urgent care setting.

Waukesha, WI, is a vibrant city within Waukesha County, which includes a population of almost 400,000. The region thrives in a year-round calendar of activities in arts and culture, professional and collegiate sports, and recreational activities. With easy access to major metropolitan cities, including Milwaukee and Chicago, this role provides a community practice setting with urban amenities close to home.

We thank you in advance for sharing this opportunity with your program’s graduating residents. To learn more about this opportunity, please contact Patrick Coplan, Coordinator Physician Recruitment, at 262-696-0424, or Patrick.Coplan@phci.org.

Sincerely,

Art Coffey, MD
Chief Physician Operations Officer

James Gardner, MD
Vice-President Physician Integration
Need For 1 IM / Ped

Due to the continued growth of the practice, the group is looking to add an IM/Ped to the Delafield office. Call will be no more frequent than 1 in 7, shared with the other IM/Ped physicians within the group. Call is via the phone, as adult patients are admitted to the hospitalist program at Oconomowoc Memorial Hospital. The new physician can expect a fairly equal division of time between internal medicine and pediatrics.

An excellent two-year guaranteed salary will be offered with an incentive formula available from day one. Comprehensive benefits will also be included along with a signing bonus.

ProHealth Medical Group - Delafield

ProHealth Medical Group

ProHealth Medical Group provides comprehensive primary and specialty care for people of all ages. When you come to us for health care, you can rest assured that you’re in good hands -- providing quality care and excellent service are the hallmarks of our organization. We welcome new patients and accept most insurance plans.
Why choose us for your care?

Our expert, dedicated team

From primary care to chronic disease management, our 250 board-certified physicians and mid level providers have been keeping the community healthy for generations. Our physicians and expert staff are dedicated to providing the advanced health care services you need, when and where you need them most.

Multiple locations

With 12 locations offering primary and specialty care located throughout Waukesha County, it’s easy to find a physician office with the comprehensive health care services you need, close to home. For your convenience, many of our multiple locations also have full-service laboratories, and medical imaging and specialty testing services.

Urgent care services

For those times when you need to see a doctor after hours, you can visit one of our urgent care centers. These centers are conveniently open seven days a week and never require an appointment.

Advantages of a technologically advanced, integrated health system

ProHealth Medical Group is proud to be part of ProHealth Care, a regional specialty and primary care provider that ranks among the most technologically and clinically advanced community health care systems in the country. As a patient of ProHealth Medical Group, you have access to all the advanced technology, expert specialists and sophisticated capabilities of ProHealth Care, including a continuous electronic medical record. Our integrated health care delivery system is able to meet your total health care needs.

About ProHealth Care

ProHealth Care is a regional critical and primary care provider with nationally recognized programs and doctors, and ranks among the most advanced community health care systems in the country. Our integrated health network includes:

- Waukesha Memorial, a tertiary care hospital
- Oconomowoc Memorial, an acute care hospital
- 12 ProHealth Medical Group centers, with more than 250 primary and specialty care physicians and mid level providers
- Home health care and hospice services
- Assisted and independent living communities
- West Wood Health and Fitness Center

ProHealth Care Services

We are proud to offer nationally recognized care to Southeast Wisconsin. Our services include:

- Neuroscience Center
- Regional Cancer Center
- Heart Center
- CyberKnife Center
- Level III Newborn Intensive Care Unit
- Center for Breast Care
- Women's Center
- Orthopedic Center
Our Mission to Serve

For almost a century, ProHealth Care has been the major provider of health services in Waukesha County and today remains the only community-rooted health care system in Southeast Wisconsin. Our mission is to serve residents of Waukesha County and surrounding areas with the highest quality care at a reasonable cost.

Leaders in Cost Transparency

A leader in providing hospital cost and quality information to consumers, ProHealth Care was the first in the state to publish hospital charges for the most common procedures and the first to provide a Consumer Inquiry Line that consumers can call or go online for hospital charge information. ProHealth Care is proud to be the largest employer in Waukesha County.

History

ProHealth Care's history dates back to 1914 as a single hospital providing care on Delafield Street in Waukesha. Today, ProHealth Care is comprised of members representing nearly all aspects of health care.

In 1998, Waukesha Hospital System and Oconomowoc Memorial Hospital joined together to form ProHealth Care. The result is an organization that offers 12 primary care clinics, home health care, inpatient and home hospice services, long-term care, senior residency communities, a health and fitness center, and more, with services continually developed and added to keep pace with community need and demand. These all-encompassing services provide a seamless continuum of care to patients of all ages.

ProHealth Care also offers a network of nearly 1,000 physicians and 6,000 employees, making us one of the largest employers in Waukesha County. ProHealth Care was named one of the Best Places to Work by Milwaukee Magazine and MRA numerous times.

ProHealth Medical Group was formed in January 2008 when ProHealth Care Medical Centers and Medical Associates Health Centers united, joining two medical groups long known for providing high-quality, personalized patient care. We will continue to build on our long legacy of providing compassionate care and bringing needed health services to the communities we serve within Waukesha County.

Our Hospitals

ProHealth Care is proud to offer sophisticated technology and advanced diagnostic, surgical and critical care capabilities at its two hospitals -- Oconomowoc Memorial, an acute care hospital and Waukesha Memorial, a tertiary care hospital. An important part of ProHealth Care's integrated health care network, our hospitals' Centers of Excellence are distinguished by advanced technology, clinical research, the latest proven diagnostic and treatment options, and a multidisciplinary, evidence-based approach to care.
