LHSCollaboratory
Putting Data, Knowledge, and Practice into Motion at the University of Michigan

Welcome to the 2019-2020 LHS Collaboratory Season!

- Theme: *LHS Acceleration and Implementation*
- New Collaboratory Structure
 - Membership entity with projects and initiatives as its members
 - 23 projects and initiatives have joined
 - All Collaboratory activities will remain open to the entire university community
 - Additional projects and initiatives will join the Collaboratory as interest continues to grow
 - Activities will focus on the shared needs of the projects and initiatives who are its members, as well as those expressed by interested individuals who continue to participate

Today's Session

There is a lot of LHS-related activity ongoing and expertise present on the U-M campus

At the April LHS Collaboratory Implementation and Acceleration Symposium we identified many shared challenges and ways to work together to address them.

Goal of Today: Working in groups, continue the collaboration - - prioritize the top shared challenges and associated solutions.

Group Activities Today

Five groups will meet for an hour. (At this point you should know which group you are attending.)

Everyone will receive, for his/her group, a summary of challenges and potential solutions identified in April.

Today's discussion will identify the "top two" challenges and potential solutions.
