COURSE HIGHLIGHTS
Designed for the busy clinician, this exciting full-day course will cover the most common movement disorders seen in clinical practice, including tremor, dystonia, tics, chorea and parkinsonism, as well as gait disorders. Participants will benefit from the expertise of our highly regarded movement disorders faculty, who will provide attendees with high-yield, practical information for recognition, diagnosis, assessment and management of these movement disorders. The afternoon session is dedicated to “bedside teaching” sessions with actual patients. During these sessions, faculty will demonstrate movement disorders examination techniques and share clinical pearls so that participants can be more confident in diagnosing various movement disorders.

Primary care physicians, geriatricians, psychiatrists, physiatrists, physicians in training, nurses, physician assistants, and rehabilitation specialists who are interested in learning more about clinical aspects of movement disorders will find this course highly beneficial.

LEARNING OBJECTIVES:
Upon completion of this course, participants should be able to describe how to evaluate, examine and treat patients who present with:

- Tremor
- Dystonia
- Parkinsonism
- Gait disorders
- Chorea
- Tics

WHO SHOULD ATTEND:
The intended audience for this course includes primary care physicians, geriatricians, psychiatrists, physiatrists, physicians in training, nurses, physician assistants, and rehabilitation specialists who are interested in learning more about clinical aspects of movement disorders.

PROGRAM SCHEDULE
FRIDAY, SEPTEMBER 14, 2018    65 CREDIT HOURS
7:30am  Registration and Continental Breakfast
AM SESSION - Didactic lectures
8:00  The Patient Who Shakes  Chou
8:45  The Dystonic Patient  Dayalu
9:15  The Parkinsonian Patient  Poston
10:00  BREAK
10:15  The Patient with a Walking Problem  Kotagal
11:00  The Fidgety Patient  Wyant
11:30  The Patient with Tics  Spears
12:00pm   LUNCH
PM SESSION - Participants will be split into 3 groups and spend 20-25 minutes with each live patient
1:00  Patient 1
1:25  Patient 2
1:50  Patient 3
2:15  BREAK
2:30  Patient 4
2:55  Patient 5
3:20  Patient 6
3:45  Q&A
4:00  Adjourn

FOR PATIENT CARE OR REFERRALS:
University of Michigan Health System Department of Neurology
East Ann Arbor Health and Geriatrics Center
4260 Plymouth Rd. Level 1
734-764-6831
ACCREDITATION AND CREDIT DESIGNATION:
The University of Michigan Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The University of Michigan Medical School designates this live activity for a maximum of 6.5 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Osteopathic Association has approved this live activity for 6.5 credit hours.

This Live activity, U-M Movement Disorders for the Non-Neurologist, with a beginning date of 09/14/2018, has been reviewed and is acceptable for up to 6.50 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DRIVING DIRECTIONS

From Detroit
I-96 West to Newburgh Rd. Exit (173A). Follow Schoolcraft service drive for approximately 3/4 mile. Laurel Manor is on the right hand side.

From Ann Arbor
M-14 East (turns into I-96 East) to Newburgh / Levan Road Exit (173). Immediately after exiting the freeway, there is an overpass / 96 West, make a left hand turn to cross over the freeway, turn left onto the Schoolcraft Rd service drive heading West (stay in the right hand lane, not to enter back onto the freeway) Follow for approximately ½ mile. Laurel Manor is on the right hand side.

From Metro Airport
I-94 West to I-275 North to I-96 East (Detroit) to Newburgh / Levan Road Exit (173). Immediately after exiting the freeway, there is an Overpass / 96 West, make a left hand turn to cross over the freeway, turn left onto the Schoolcraft Rd. service drive heading West (stay in the right hand lane, not to enter back onto the freeway) Follow for approximately ½ mile. Laurel Manor is on the right hand side.

From Grand Rapids
I-696 West to I-275 South to I-96 East (Detroit) I-96 East to 275 South to I-96 East to Newburgh / Levan Road Exit (173) immediately after exiting the freeway, there is an overpass / 96 West, make a left hand turn to cross over freeway, turn left onto the Schoolcraft service drive heading West. Follow for approx. 1/2 mile. Laurel Manor is on the right hand side.
COURSE DIRECTORS

Kelvin L. Chou, MD

Kelvin L. Chou, MD, is a Professor of Neurology and Neurosurgery in the Department of Neurology. He is the Education and Outreach Core Director for the U-M Udall Center of Excellence for Parkinson’s Disease Research and the Co-Director of the Surgical Therapies Improving Movement (STIM) Program.

Board-certified in Neurology and fellowship-trained in movement disorders, Dr. Chou maintains an active movement disorders practice. His research is focused on improving the ability to treat movement disorders patients through deep brain stimulation (DBS) by better understanding the relationships between patient baseline characteristics, DBS targeting, and the clinical effects of stimulation.

Kara J. Wyant, MD

Kara J. Wyant, MD, is an Assistant Professor in the Department of Neurology. She is board certified in Neurology and fellowship trained in movement disorders. She is currently serving as a neurohospitalist at the University of Michigan and provides teleneurology consults for MidMichigan Health System.

Dr. Wyant is actively participating in industry and clinician-led clinical trials for patients with Parkinson disease piloting in-home tele-health visits to improve access to care for patients in rural Michigan. She is also working with MidMichigan Health System to establish remote DBS and movement disorders clinic.
