COURSE OBJECTIVES

Utilizing both a didactic and case-study approach, this year’s highly anticipated full-day course will focus on neurologic causes of falls and balance problems, including Parkinson disease, normal pressure hydrocephalus, ataxia, psychogenic gait disorders, neuromuscular causes, and dizziness/vertigo. Specifically designed for the busy clinician, this course will provide attendees with high-yield information and clinical pearls for recognition, diagnosis, assessment and management of neurological problems contributing to falls. Participants will benefit from the expertise of University of Michigan Medical School faculty, who will give a didactic lecture for each topic that includes case presentations so that participants can experience how course faculty approach cases in their own practice. The morning and afternoon sessions will end with a panel discussion so that participants have ample time to ask questions. The intended audience includes primary care physicians, geriatricians, psychiatrists, neurologists, physicians in training, nurses, and physician assistants who are interested in learning more about neurological disorders that put patients at risk for falling.

LEARNING OBJECTIVES:

Upon completion of this course, participants should be able to:

• Identify major risk factors for patients with falls/gait disorders and review an assessment and intervention plan for these patients
• Describe how to evaluate and treat falls in patients with Parkinson disease
• Describe how to evaluate patients with suspected normal pressure hydrocephalus, vascular parkinsonism, and freezing of gait
• Identify features suggestive of psychogenic gait disorders
• Recognize when patients might have a neuromuscular cause for their falls
• Define ataxia and recognize clinical symptoms suggesting a cerebellar cause for falls
• Describe how to evaluate the patient who complains of dizziness and balance problems

WHO SHOULD ATTEND:
The intended audience for this course includes primary care physicians, geriatricians, neurologists, psychiatrists, nurses, and physician assistants who see patients with neurological problems.

U-M MOVEMENT DISORDERS UPDATE:
FOCUS ON FALLS
FRIDAY, OCTOBER 20, 2017
LAUREL MANOR, LIVONIA, MI

PROGRAM SCHEDULE
FRIDAY, OCTOBER 20, 2017    6.75 CREDIT HOURS
7:30am  Registration and Continental Breakfast
8:00  Falls and real world reduction in fall risk in older adults
      Alexander
9:00  Postural instability and falls in Parkinson disease
      Dauer
9:45  BREAK
10:00  Take it from the top: A clinical approach to patients with NPH and other higher-level gait disorders
       Wyant
10:45  Clinical pearls to identify psychogenic gait disorders
       Chou
11:30  PANEL DISCUSSION
      Moderator Kelvin L. Chou, MD
12:00pm   LUNCH
1:00  Neuromuscular disease and fall risk
      Little
2:00  Clues to diagnosing ataxia
      Shakkottai
2:45  Dizziness and vestibular causes of falls
      Kerber
3:30  PANEL DISCUSSION
      Moderator Kelvin L. Chou, MD
4:00  Adjourn

DATE
Friday, October 20, 2017
Registration and Continental Breakfast: 7:30am
Course Adjourns: 4:00 pm

LOCATION
Laurel Manor
39000 Schoolcraft Rd, Livonia, MI 48150
Phone: (734) 462-0770
http://laurelmanor.com/
Course Fee: $150

REGISTRATION
You are urged to register as soon as you are certain of attending as we cannot guarantee
education materials for applicants who are not preregistered and prepaid by October 6. Registration fees include continental breakfast, lunch, and educational materials for each participant. Checks should be made payable to the University of Michigan. Payments
made via American Express, Visa or MasterCard are also accepted.

RECORIDING THE PROGRAM
Recording the program with battery-operated devices not requiring podium microphones is permitted for the registrant’s personal use.

PROGRAM FUNDING
This program is supported under the Education and Outreach Core of the University of Michigan Udall Center of Excellence for Parkinson’s Disease Research. The Education and Outreach Core pursues a comprehensive program to educate caregivers about the etiology, clinical features and state-of-the-art management of Parkinson disease and falls, including the clinical education of Udall Center Fellows and an aggressive outreach program to inform and educate traditionally underserved communities about Parkinson Disease and related movement disorders.

U-M MOVEMENT DISORDERS UPDATE: FOCUS ON FALLS
Friday, October 20, 2017
ACCREDITATION AND CREDIT DESIGNATION:
The University of Michigan Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The University of Michigan Medical School designates this live activity for a maximum of 6.75 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Osteopathic Association has approved this live activity for 6.75 credit hours.

This Live activity, U-M Movement Disorders Update: Focus on Falls, with a beginning date of 10/20/2017, has been reviewed and is acceptable for up to 6.75 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DRIVING DIRECTIONS

From Detroit
I-96 West to Newburgh Rd. Exit (173A). Follow Schoolcraft service drive for approximately 3/4 mile. Laurel Manor is on the right hand side.

From Ann Arbor
M-14 East (turns into I-96 East) to Newburgh / Levan Road Exit (173). Immediately after exiting the freeway, there is an overpass / 96 West, make a left hand turn to cross over the freeway, turn left onto the Schoolcraft Rd service drive heading West (stay in the right hand lane, not to enter back onto the freeway) Follow for approximately ½ mile. Laurel Manor is on the right hand side.

From Metro Airport
I-94 West to I-275 North to I-96 East (Detroit) to Newburgh / Levan Road Exit (173). Immediately after exiting the freeway, there is an Overpass / 96 West, make a left hand turn to cross over the freeway, turn left onto the Schoolcraft Rd. service drive heading West (stay in the right hand lane, not to enter back onto the freeway) Follow for approximately ½ mile. Laurel Manor is on the right hand side.

From Grand Rapids
I-96 West to I-275 South to I-96 East (Detroit) I-96 East to 275 South to I-96 East to Newburgh / Levan Road Exit (173) immediately after exiting the freeway, there is an overpass / 96 West, make a left hand turn to cross over freeway, turn left onto the Schoolcraft service drive heading West. Follow for approx. 1/2 mile. Laurel Manor is on the right hand side.
COURSE DIRECTOR
Kelvin L. Chou, MD

Kelvin L. Chou, MD, is a Professor of Neurology and Neurosurgery in the Department of Neurology. He is the Education and Outreach Core Director for the U-M Udall Center of Excellence for Parkinson’s Disease Research and serves as Co-Director of the Surgical Therapies Improving Movement (STIM) Program.

Board-certified in Neurology and fellowship-trained in movement disorders, Dr. Chou has been named to the Best Doctors of America list and maintains an active movement disorders practice. He has published over 100 peer-reviewed articles, review articles, or book chapters on deep brain stimulation, Parkinson’s disease, and other movement disorders.

A strong patient advocate, Dr. Chou serves on the Professional Advisory Board of the Michigan Parkinson Foundation, the Medical Advisory Board of the International Essential Tremor Foundation (IETF) and has published a book for patients and families called Deep Brain Stimulation: A New Life for People with Parkinson’s, Dystonia and Essential Tremor.
