If your copay/deductible is more than $200, Natera will contact you to confirm if you want whatever that cost is to be applied, or if you want to pay the cash price of $200

Anora Genetic Testing: Products of Conception

The company we use for testing products of conception is called Natera. The test is called Anora. "Anora is a genetic test that is performed on tissue from a pregnancy that has been miscarried.

For more information, please visit Natera at https://www.natera.com/anora-miscarriage-test. The cost of Anora testing is based on your insurance coverage.

Out-of-Pocket Cost (maximum): $200, if there are any bill issues you will need to reach out to Jordan Steele to adjust. The charge will be processed through your insurance carrier before any adjustments. *Prices are subject to change

Financial Resource: To understand your financial responsibility, please call Jordan Steele (IVF Specialist, Patient Care Coordinator) at Natera at 317-690-0557 or email her at jsteele@natera.com.
