

Monthly MNI Seminar - Data Blitz Presentation

Thursday October 14th, 3:00-4:00 pm

Request Zoom Link: snoroozi@umich.edu

Sami Barmada, M.D., Ph.D.

Dept.: Neurology

Title: Novel approaches for visualizing and stimulating autophagy in neurons

Dan Goldman, Ph.D.

*Dept.: Michigan Neuroscience Institute
and Biological Chemistry*

Title: Muller glial cell reprogramming and retina regeneration

Cynthia Chestek, Ph.D.

*Dept.: Biomedical Engineering and Electrical
Engineering and Computer Science*

Title: Brain machine interfaces for the control of precise finger movements

Maria Castro, Ph.D.

Dept.: Neurology and Cell and Developmental Biology

Title: Epigenetic reprogramming of the tumor immune microenvironment in mutant IDH1 gliomas: cross talk between the nervous and the immune systems

We invite the greater University of Michigan Neuroscience community to join us and participate in our newly launched MNI seminar series. These will occur the second Thursday of each month, from 3:00 – 4:00 PM. We intend to feature multiple data blitz presentations at each seminar, so that neuroscientists campus wide can learn more about each other's science.
