

March 29th, 2019  
8:45 AM - 5 PM  
Rackham Amphitheatre  
4th Floor the Rackham Building

# 39th Annual Pharmacological Sciences and Bio-related Chemistry Symposium

**Ethics Speaker:**  
**Dr. Nicole Lockhart, Ph.D.**

**Title: "The Ethical, Legal and  
Social Implications of Genomics:  
Emerging and Re-emerging Issues"**

NIH National Human Genome Research Institute  
Health Sciences Administrator  
Division of Genomics and Society  
Genetic Editing and Genome Research Ethics

**Keynote Speaker:**  
**Dr. David Baltimore, Ph.D.**

1975 Nobel Laureate in Medicine and Physiology

## **Schedule:**

- 8:45 Breakfast/Registration
- 9:15 Opening Remarks
- 9:30 Ethics Speaker,  
Dr. Nicole Lockhart, Ph.D.
- 10:25 Student Talks A & B
- 11:35 DEI Speaker,  
Dr. William A. Lester, Ph.D.
- 12:30 Lunch & Poster Session
- 2:00 Keynote Speaker,  
Dr. David Baltimore, Ph.D.
- 3:30 Coffee Break
- 4:00 Student Talks C & D
- 4:50 Concluding Remarks & Awards
- 5:00 Reception

**Diversity, Equity and Inclusion (DEI)  
Speaker:**

**Dr. William A. Lester, Ph.D.**

**Title: "TBA"**

Professor of Chemistry,  
University of California, Berkeley

**Deadline for registration is Friday, March 15th**

## **ABOUT THE PHARMACOLOGICAL SCIENCES TRAINING PROGRAM:**

PSTP is funded by the NIH. The training grant provides scientific training and financial support for select graduate students in the Departments of Pharmacology, Medicinal Chemistry, Biological Chemistry, Pharmaceutical Sciences, Chemistry, Toxicology, and Molecular and Integrative Physiology. The symposium offers a forum for students across multiple disciplines to present their original research and engage in stimulating scientific discussion.
