**Faculty/Director Sponsor (required):**  

Suggestions for faculty who might be qualified to review this proposal:

-  
-  
-  

**On a maximum of 3 pages (shorter is acceptable), answer the following questions:**

- What are the goals of the research? Include a hypothesis, or explain why there is no hypothesis. (approximately 0.25-0.5 page)
- Background and significance: Explain why the problem is important, what is known about the problem already, what is not known, and how your proposal will fill these gaps (approximately 0.5-0.75 page)
- Methods and approach: What methods will you use to carry out the work? What are the potential pitfalls and limitations? (approximately 2 pages)
- Budget: Describe how the funds will be used, including supplies and personnel; provide details regarding the percent effort of research personnel that will be supported by the funds. (0.5 page, not counted in 3-page limit)

*Limit to no more than 10 citations (not counted in 3-page limit).*
