Translational Cross Talk
Wednesday, September 23, 2020 @ 12:00 noon
“An Engineered Immunological Niche for Early Detection of Metastatic Cancer (and other diseases with immune dysregulation)”

Presented by:
Jacqueline Jeruss, MD
Professor of Surgery, Professor of Pathology,
Professor of Biomedical Engineering
University of Michigan
Lonnie Shea, PhD
Professor & Chair of Biomedical Engineering, Professor of Chemical Engineering
University of Michigan

CPOD Seminar
Tuesday, October 20, 2020 @ 4:00 pm
“Neural control of breathing”

Peng Li, PhD
Research Assistant Professor, Life Sciences Institute
Assistant Professor, Dept. of Biologic and Materials Sciences
Assistant Professor, Dept. of Molecular and Integrative Physiology
University of Michigan

Translational Cross Talk
Wednesday, October 28, 2020 @ 12:00 noon
“Macrophages in Diabetic Wound Repair”

Presented by:
Katherine A. Gallagher, MD
Associate Professor of Surgery and
Associate Professor of Microbiology and Immunology
University of Michigan
Bethany Moore, PhD,
Interim Chair and Professor, Microbiology & Immunology
Galen B Toews MD Collegiate Professor of Pulmonary Care & Critical Medicine
Professor, Internal Medicine
University of Michigan

CPOD Seminar Co-Sponsored by Department of Cell and Developmental Biology
Tuesday, November 10, 2020 @ 4:00 pm
“Using the craniofacial complex to explore mechanisms of Hedgehog signal transduction”

Samantha A. Brugmann, PhD
Associate Professor of Surgery
Cincinnati Children’s Hospital Medical Center
