

Thank you for scheduling your upcoming appointment at the Center for Reproductive Medicine.

Based on feedback from our patients, I wanted to provide you with some information regarding what to expect at your appointment. We are happy to review more detail about this information in person, but our patients felt that it might be helpful to have this information before presenting to clinic.

As reproductive specialists, our therapeutic options are targeted to the individual based on their history. The effectiveness and availability of many of our treatment options vary based on age.

| Treatment options | Oral fertility medication with or without insemination | Injection fertility medication with or without insemination | In vitro fertilization (IVF) with own eggs | In vitro fertilization (IVF) with donor eggs |
|-------------------|--|---|--|--|
| Age < 40 | X | X | X | X |
| 40 - 42 | +/- | X | X | X |
| 43 - 45 | | +/- | | X |
| 46 - 52 | | | | X |
| 55 and up | | | | |

Other resources we have at the Center for Reproductive Medicine that are options for all patients include access to our fertility counselors, nursing education, support groups, and financial counseling.

Please let us know if you have any questions by calling our nurses at 734-763-6295, option 1. We look forward to seeing you at your appointment.

Sincerely,

Marie Menke, MD, MPH
Medical Director, University of Michigan Center for Reproductive Medicine
