

**WILDERNESS MEDICINE ELECTIVE (M4s)**

**2013 September**

Most practical and useful course in med school	Recommend to others	More prepared to approach and administer basic medical care outside of the hospital	More prepared and capable in the aspect of basic outdoor and recreational trip planning	Skills and knowledge gained during course will be beneficial	Instructors dedicated to teaching	Pursue Fellowship in WM thru WMS?	Interested in continuing to learn about WM	Improvements	Favorite aspects	General Comments
9	10	10	10	10	10	1	10	-More scenarios at beginning -More kayaking! -For trip maybe some more pertinent lectures prior	-Pictured Rocks were amazing! -Loved kayaking -Shafer was great.	
9	10	9	9	10	8	8	8	-Earlier trip organization/planning/packing list -More scenarios -Check with EM rotation for redundancy in labs	-Botanical gardens -Pictured Rocks trip -Climbing	
8	10	10	10	10	10	8	10	Would be nice to know day start/end times a little more in advance.	-Toxin jeopardy was cool. -Keep hiking trip --> was fun & informative -Would like some practice with litters	
9	10	10	8	10	10	7	10	-More organization week 1 - but every other week was great in terms of organization. -Trail biking!	-Hypo/hyperthermia lecture was great. -The whole Pictured Rocks trip -Alan and Zach	
9	10	9	8	10	10	6	10	Rock climbing outside	-Great trips -Informative lectures	
9	10	8	9	10	9	9	10	-Go trail biking twice -Less lecture, more scenario practice (6 hrs of lecture straight was rough)	-Spending time outdoors -Mountain biking	Possible lectures to exclude: Desert Med (repetitive info), search/rescue, 2 hrs infectious diseases --> 1 hr (sooo long)
10	10	9	8	9	8	9	10	-More practical scenarios like the practical exam -More mountain biking!	-Backpacking -Mountain biking -Climbing -Learning practical skills	
10	9	9	9	10	10	9	10	-Have a learning day on the trail where you do scenarios and stay at the same site for two nights -Go to Dominick's twice	-Pictured Rocks -Planet Rock -Zach's socks	
10	9	10	10	10	10	10	10	Pictured Rocks excursion 30 miles instead of 40. More time for site seeing and practical learning.	More Dr. Bagian	
10	10	10	10	10	10	8	10	-Should offer a week long course between M1 & M2 would be awesome -Would have enjoyed doing a "practical" style experience 2 times during the rotation. It was great practice & good learning.	Astronauts are cool!	Best course/best month of med school
10	10	10	10	10	10	10	10	More topical lectures during first week - less about how to pack for camping	Especially liked Wilkerson, Bagian. Alan & Zach were great, couldn't have asked for better motivators.
