Target Audience
The faculty of the University of Michigan Department of Ophthalmology and Visual Sciences welcomes ophthalmologists, dermatologists, and other medical professionals to our 2018 Mid-Winter Oculoplastics Symposium.

Course Description
This update in Eye Plastics and Orbit will allow the comprehensive ophthalmologist to review wound healing, and get updates on the diagnosis of conjunctival tumors, as well as what can masquerade as conjunctivitis. Systemic diseases may manifest in the orbits and lids which can be challenging to diagnose.

There will be the expert’s corner where difficult trauma cases, orbital mysteries, and challenging lids cases will be presented and discussed. There will be time for cases submitted in advance by comprehensive ophthalmologists to be discussed by the Panel in the discussion session.

Course Objectives
Upon completion of this activity, participants will understand and be able to:
1. perform a blepharoplasty
2. interpret the different uses of Botox; both functional and cosmetic
3. identify conjunctival tumors
4. evaluate lower lid retraction
5. describe the different systemic diseases that can manifest in the lids and orbit

The University of Michigan Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Michigan Medical School designates this live activity for a maximum of 4.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
7:30  Registration and Continental Breakfast  
Kellogg Eye Center - Lobby

7:55  Welcome and Introduction  
Christine C. Nelson, M.D., FACS

8:00  Upper Eyelid Blepharoplasty: Anatomic Foundations for Surgical Success  
Alon Kahana, M.D., Ph.D.

8:20  Misdiagnosis of Conjunctival Tumor  
Hakan Demirci, M.D.

8:40  The Goopy Eye: When It’s More Than Conjunctivitis  
Raymond Cho, M.D., FACS

9:10  Conditions of Wound Healing and Flaps  
Victor M. Elner, M.D., Ph.D.

9:30  Systemic Disease Manifesting in Orbits and Lids  
Terry J. Smith, M.D.

9:50  Clinical Eye Plastic Applications of Botox for the General Ophthalmologist  
César A. Briceño, M.D.

10:15  Q & A Session

10:30  Break

10:45  What is Mohs?  
Noah Smith, M.D.

11:10  Lower Lid Retraction: You are Dragging Me Down  
Raymond Cho, M.D., FACS

11:30  Imaging of Orbits: Radiology of Globe Interesting Case  
Remy Lobo, M.D.

12:00  Expert’s Corner and Panel Discussion  
Christine Nelson, M.D.

1:00  Concluding Remarks

Guest Speakers:
Raymond Cho, M.D., FACS  
Oculo-Plastic & Orbital Reconstructive Surgery  
Director, Oculoplastic & Orbital Surgery  
Wexner Medical Center, Ohio State University

César A. Briceño, M.D.  
Department of Ophthalmology  
Assistant Professor, Perelman School of Medicine  
University of Pennsylvania

University of Michigan and Kellogg Eye Center Speakers:

Hakan Demirci, M.D.
Victor M. Elner, M.D., Ph.D.
Alon Kahana, M.D., Ph.D.
Remy Lobo, M.D. - Department of Radiology
Christine C. Nelson, M.D., FACS
Noah Smith, M.D. - Department of Dermatology
Terry J. Smith, M.D.

Planning Committee:
Shahzad I. Mian, M.D.
Christine C. Nelson, M.D., FACS

Jennifer E. Burkheiser - CME Coordinator
