

We welcome Optometrists to an educational experience that will enhance clinical practice. Through lectures, case presentations, and audience interaction, participants will learn about the some of the latest clinical trials results and hot topics in the field.

**Course Objectives**

As a result of attending this activity, participants will be able to:

1. Get up to date on topics in plastics, retina, glaucoma, genetics
2. Learn the latest in the area of myopia control
3. Understand the latest in genetics testing as it applies to the eye

**Continuing Education Credits**

COPE Course ID's: 65337-GO

COPE Event ID: 118485

Qualified Credit: 4.0

Evidence Based Approach to Improving Patient Outcomes
