

NOW HIRING TENURE-TRACK FACULTY

JOIN A COHESIVE AND HIGHLY INTERACTIVE COMMUNITY OF INVESTIGATORS WITH RESEARCH PROGRAMS IN DIVERSE AREAS OF GENETICS AND GENOMICS

APPLY ONLINE: [APPLY.INTERFOLIO.COM/152208](https://apply.interfolio.com/152208)

MORE INFORMATION: [MEDICINE.UMICH.EDU/DEPT/HUMAN-GENETICS](https://medicine.umich.edu/dept/human-genetics)

The Department of Human Genetics at the University of Michigan Medical School (Ann Arbor, MI) seeks to fill a tenure-track faculty position at the Assistant Professor level.

We encourage candidates to apply who have a PhD, MD, or equivalent, and are employing classical and modern approaches to address fundamental questions in genetics and genomics. Recruited faculty will join a highly collaborative community of more than forty investigators, whose research is well integrated with other basic science and clinical departments and institutes at the University of Michigan. Information about research being conducted in the Department can be found at medicine.umich.edu/dept/human-genetics.

Successful candidates will be provided laboratory and office space at the Medical School along with a competitive start-up package to develop a robust research program. We expect candidates will contribute to our faculty's strong interest in developing trainees at all levels, including teaching in the classroom and mentoring trainees in the laboratory.

The University of Michigan is an equal opportunity employer. We strongly encourage applications from women, individuals from traditionally underrepresented backgrounds in the sciences, and dual career couples.

Completed applications will start to be reviewed on October 1, 2024. For full consideration, completed applications must be received by November 15, 2024. All materials should be submitted via interfolio at apply.interfolio.com/152208. For questions about the position or the application process, please contact the chair of the search committee, Dr. Jacob Kitzman (kitzmanj@umich.edu).

Qualification and Application Requirements

- PhD and/or MD degree
- Curriculum vitae
- Three-page statement summarizing past and future research plans
- One-page description of teaching philosophy
- One-page statement outlining commitment to enhancing diversity, equity and inclusion
- Three letters of recommendation

The University of Michigan Health System conducts background screening and pre-employment drug testing on job candidates upon acceptance of a contingent job offer and may use a third-party administrator to conduct background screenings. Background screenings are performed in compliance with the Fair Credit Report Act.
